Resolutions of Respect.

Whereas, it has pleased the Grand Master of the Universe to remove from our midst our worthy brother, Henry H. Berry;

Therefore, be it resolved, this fraternity has lost an earnest and active member, the family a loving and affectionate husband and father, and the community an upright and honorable citizen.

Be it further resolved, that McCook lodge No. 61, A. O. U. W., extend to the bereaved family their profound sympathy in this their hour of grief.

Resolved, a copy of these resolutions be sent to the family of our late brother, a copy spread on the minutes of the lodge, and a copy furnished to the city papers for publication.

CONGRESSMAN NORRIS ENDORSED

A rousing, impromptu mass meeting of citizens of McCook was held in the court room of the court house, Monday evening, to give expression to their hearty and earnest endorsement of the course pursued by our fellow townsman Congressman G. W. Norris in his fight for a revision of the rules of the national house of representatives to the end that more representative legislation and government be secured and that by the same token special privilege be checked.

This action was inspired and prompted by the recent successful effort of Congressman Norris in the house in securing the adoption of a motion making it the duty of the house to appoint its own committee to investigate the Balinger charges and the interior department.

The meeting was organized by calling to the chair Dr. C. L. Fahnestock and the selection of H. W. Conover as secretary, and the appointment of C. W. Taylor, P. S. Heaton, L. W. McConnell, M. Lawritson and E. S. Howell as a committee on resolutions.

During the absence of the committee while formulating the resolutions several citizens gave utterance to their sentiments on the subject and person in hand.

J. A. Wilcox, Dr. J. D. Hare, J. F. Forbes and others responded briefly to the call.

The expressions of the speakers of the evening indicated their harmony with the moral political awakening of the people especially of the great Middle West and crystallized in the subsequent adoption of these hearty and stirring resolutions endorsing and encouraging

the course pursued and the ends so far accomplished by Congressman Norris.

At the conclusion of the meeting those present affixed their names to the resolutions adopted and these were forwarded by mail to the congressman in Washington, where the wire had already carried him the language of the "vote of confidence" of his townspeople.

Following is the resolutions adopted: "We, the citizens of McCook, and neighbors of George W. Norris in mass meeting assembled, do hereby pass the following resolutions:

"We commend his integrity of purpose, his unfeigned loyalty to the people's interests and his persistent effort in the endeavor to attain such a revision of the rules as will make the house of representatives a truly representative body. We do hereby heartily and unreservedly endorse the firm and fearless stand taken by our congressman in the contest now being waged in congress against a 'one man power' and for a return of representative government. Especially do we commend him for refusing to abandon this righteous cause when refusal meant humiliating punishment. We believe in the cause of the insurgents and commend their courage. We are unalterably opposed to the present 'system' under which laws are enacted by a few for the benefit of a few, contrary to the wishes of the people. We extend to him our unqualified endorsement of his position in the endeavor to be a real representative of the people and an opponent of machine legislation as practiced in the national congress under its present rules."

A Thrilling Drama.

A fine revival of the greatest of all romantic melodramas, "Monte Cristo," is to occupy the Temple theatre, McCook, Neb., on Jan. 15, and Manager Fred G. Conrad of the attraction promises that this most absorbing and thrilling of dramas will have its two requirements thoroughly well supplied, a good company and special equipment of scenery. The play as presented here, will be perfected by one of the best of modern "Monte Cristo" star actors. It is well known that no play ever written has exceeded "Monte Cristo" in the power of its climaxes, or in the fascination of its story. It is to be hoped that the laudable ambition of Mr. Conrad to provide the best kind of theatrical entertainment will be encouraged by a liberal patronage of this famous classic. Price 25, 35, 50, 75

A Famous Duel.

The memorable duel scene in "Monte Cristo" as well as such climax as the "World is Mine" will be irresistible magnets for the coming engagement of the play at the Temple theatre, McCook, Neb., Jan. 15th, and is as exact a reproduction as possible of the most thrilling combat that ever took place on a field of honor, the meeting of Del Freschi Chateau Renaud in the Fontainebleau forest, near Paris. It is a deadly duel with all details closely following the historical combat as described by Benjamin D'Israeli. Prices 25, 35, 50 and 75 cents.

The Truth About Japan.

In the fourth number of the Citizens' Entertainment and Lecture Course Dr. Thomas E. Green will discuss the Japanese question, which has been holding so much of the diplomatic attention of the world for the past two years.

The committee hardly knows what language to use to impress your mind with the excellence of Dr. Green's work on the platform. There are lecturers and lecturers. But the difference in merit is as wide as can be imagined. Many so-called lecturers are not worthy of the name in any way. Every public-minded citizen who boasts of a taste for the better things in a cultural way ought to hear Dr. Green on January 25 at the Temple theatre. The time may come soon when every citizen will be called upon to vote on questions pertaining to Japanese policy. The Japanese labor question is yet unsolved.

Dr. Green and his work are known wherever there is an intellectual public. The dignified News of Lynchburg, Va., said: "Dr. Green is the most intellectual man on the American platform."

It was the Boston Advertiser that in a bit of most enthusiastic comment called him "the Webster of the West."

And the Richmond, Va., Times-Dispatch, one of the most conservative papers in America, said editorially: "Dr. Green's lecture of last night was the best heard here in ten years, excepting none, although in that time we have had some of the most celebrated orators in the world."

Such praise might seem extravagant, but the merit is back of all of it. "Did anyone make our flag? Ah, no; By colors that will not fade, By sinuous sweep and by deathless glow, It is us that the flag has made; And it whispers today to each star-told state, 'You must hold me high, and must keep me great.'"—Dr. Green.
